

DocGo Unveils the Nation's First All-Electric, Zero-Emissions Ambulance

March 3, 2022

Leading Mobile Health Services and Medical Transportation Innovator Demonstrates Continued Environmental Commitment With "Zero Emission" Sustainability Initiative for All-Electric Fleet by 2032

NEW YORK--(BUSINESS WIRE)--Mar. 3, 2022-- [DocGo](#), a leading provider of last-mile mobile health services and integrated medical mobility solutions (Nasdaq: DCGO), announced today the delivery of its new all-electric, zero-emissions ambulance. Significantly more eco-friendly than a standard ambulance, the all-electric vehicle will be the first of its kind to be registered in the U.S. This vehicle marks the first step towards "Zero Emission," the company's latest sustainability mission to have an all-electric fleet by 2032.

With several hybrid vehicles already in its fleet, the launch of this all-electric ambulance and "Zero Emission" further demonstrates DocGo's commitment to advancing green initiatives. This all-electric ambulance is 1/10th as polluting compared to a standard gasoline ambulance. In addition to being less harmful to the planet, the electric ambulance has the potential to lower patient transportation costs due to lower fuel costs and maintenance needs.

"We are tireless in our quest to innovate how care is provided" said DocGo CEO and founder Stan Vashovsky. "Our 'Zero Emission' Initiative exemplifies how DocGo is revolutionizing the delivery of mobile medical care, and building a company that's better for our patients, for our care providers, for our customers, and for the planet."

DocGo worked with [Lightning eMotors](#), a leading provider of specialized and sustainable fleet solutions, to create the new vehicle. "We are honored to have had the opportunity to work alongside DocGo on this exciting initiative," said Nicholas

Bettis, director of marketing and sales operations at Lightning eMotors. "In addition to being environmentally-friendly, the drastic reduction in pollutants is better for the overall health of the patients being transported."

To celebrate the first patient in the U.S. to be transported in an all-electric ambulance, DocGo will be hosting a ribbon cutting with a hospital partner in New York. Additional details around partner name, location, date, and time are forthcoming.

DocGo is redefining on-demand access to healthcare, leveraging its AI-powered proprietary technology and expert healthcare professionals. The company delivers Mobile Health services at scale for hospital networks, governmental entities, and enterprise customers to provide high-quality, affordable care to patients when and where they need it most. DocGo's mobility solutions, enabled through coordinated logistics and focus on exceptional patient care, give patients much-needed access to medical attention outside of the traditional four walls of the medical establishment.

About DocGo

DocGo is a leading provider of last-mile mobile care services and integrated medical mobility solutions. DocGo is disrupting the traditional four-wall healthcare system by providing high quality, highly affordable healthcare to patients where and when they need it. DocGo's innovative technology and dedicated field staff of certified health professionals elevate the quality of patient care and drive business efficiencies for facilities, hospital networks, and health insurance providers. With Mobile Health, DocGo empowers the full promise and potential of telehealth by facilitating healthcare treatment, in tandem with a remote physician, in the comfort of a patient's home or workplace. Together with DocGo's integrated Ambulnz medical transport services, DocGo is bridging the gap between physical and virtual care. For more information, please visit www.docgo.com.

Forward-Looking Statements

This announcement contains forward-looking statements (including within the meaning of Section 21E of the U.S. Securities Exchange Act of 1934, as amended, and Section 27A of the U.S. Securities Act of 1933, as amended) concerning DocGo. These statements include, but are not limited to, statements that address our expected future business and financial performance and statements about (i) our plans, objectives and intentions with respect to future operations, services and products, (ii) our competitive position and opportunities, and (iii) other statements identified by words such as "may", "will", "expect", "intend", "plan", "potential", "believe", "seek", "could", "estimate", "judgment", "targeting", "should", "anticipate", "predict" "project", "aim", "goal", "outlook", "guidance", and similar words, phrases or expressions. These forward-looking statements are based on management's current expectations and beliefs, as well as assumptions made by, and information currently available to, management, and current market trends and conditions. Forward-looking statements inherently involve risks and uncertainties, many of which are beyond our control, and which may cause actual results to differ materially from those contained in our forward-looking statements. Accordingly, you should not place undue reliance on such statements. Particular uncertainties that could materially affect current or future results include possible accounting adjustments made in the process of finalizing reported financial results; any risks associated with global economic conditions and concerns; the effects of global outbreaks of pandemics or contagious diseases or fear of such outbreaks, such as the COVID-19 coronavirus pandemic; competitive pressures; pricing declines; rates of growth in our target markets; our ability to improve gross margins; cost-containment measures; legislative and regulatory actions; the impact of legal proceedings and compliance risks; the impact on our business and reputation in the event of information technology system failures, network disruptions, cyber-attacks, or losses or unauthorized access to, or release of, confidential information; and the ability of the company to comply with laws and regulations regarding data privacy and protection. We undertake no intent or obligation to publicly update or revise any of these forward-looking statements, whether as a result of new information, future events or otherwise.
